

HOW WE ARE DIFFERENT FROM OTHER DERMA PCD'S

- **Rather than getting manufactured our products from GMP certified units we are manufacturing from WHO GMP Units so Our Quality is at par with Multi-National Companies.**
- **We have maintained uniformity in our products packing design so that it looks entirely unique and different.**
- **We have ethical/direct marketing in few parts of North India which clearly shows that our quality will be best in comparison to most of the DERMA PCD Companies who don't have their ethical marketing.**
- **All our Packing boxes are in DRIP OFF and ITC paper only.**
- **Best Marketing support in respect to promotional material and other medico-marketing aspects**
- **Most of our products are registered with IP India government organisation.**
- **We have a dedicated & prompt Product Management Team (PMT) to answer all your queries.**
- **We have a good presence on all social media platforms so Doctors will recognise us by name.**
- **We usually dispatch on the same day of the order.**
- **We have very less shortages as we keep sufficient stock of all products.**
